Hold **L1**, hold **R1**, release **L1**, release **R1**
Hold **R1**, hold **L1**, release **R1**, release **L1**

When you lock in your character with the × button, you'll hear a bicycle bell to confirm that the code has been entered correctly. You can also enter the code with the **L2** and **R2** buttons if you wish.

Another Day

Use the following code at the character-select screen in Arcade or Original mode. When the character you want to choose is on the screen, press and release **R1** once, then hold down **R1** and press ×. You'll see the words "another day" appear in the lower left corner of the screen. In this mode, you'll have a different starting point and your customers will be in different locations.

When you defeat the opponent, the time limit will reset to and stay frozen at 40 seconds. Your opponent will lie on the ground, and the next one won't appear! You can continue to attack the fallen opponent by pressing **Up + A + B**. Each time you do this, an item will appear. You can continue obtaining items and points indefinitely. When you're ready to move on to the next opponent, just press the **Eject** button again. You can repeat this process for every single opponent. If you die, the screen will fade to white. HEADHUNTER

Star Dispenser

In the LEILA office is a dispenser marked with a star; inside are all the weapons in the game, plus unlimited ammo for each one. You can't access it during your first time through the game. However, after you finish the game and the credits roll, a prompt will appear asking you to save your game; doing so will create a new save file called "Headhunter V2." Loading this file will put you back at the start of the game, but the difficulty will be increased. The star dispenser will be unlocked when you play Headhunter V2, provided you have satisfied certain conditions:

- At the same time or before you earn your AAA License, beat Hank's record times in all 16 VR missions.
- During the same game that you accomplished the first condition, complete the game once.

Once you leave the LEILA office after obtaining your AAA License, you'll never be able to go back to it again. If you haven't obtained the record for all the VR missions by that time, you won't get access to the star dispenser after completing the game. Note: Completing VR missions by selecting "LEILA" at the main menu does not count; all of the records must be obtained from the VR simulator from within the LEILA office.

RESIDENT EVIL

Special Weapon

If you beat the game in Normal Mode in under five hours, you will start with the Samurai Edge Barry Version gun in your inventory when you play again by choosing the "Once Again..." option. The Samurai Edge is similar to the regular Handgun, except it has infinite bullets and fires three rounds consecutively when you pull the trigger.

Infinite Rocket Launcher

If you beat the game in Normal Mode in under three hours, you will start with the Infinite Rocket Launcher in your inventory when you play again by choosing "Once Again..." at the main menu.

Grenade Launcher Trick

(Note: This trick will only work with Jill. Also, it's possible that using this trick will adversely affect the quantities of other items in your inventory, so try this at your own risk.) With the Grenade Launcher and at least one spare set of unequipped grenade shells of any kind in your inventory, equip the Grenade Launcher and find an item box. When you open the item box, immediately select the set of grenade shells in your inventory and place it in the very first slot in the item box. (The first slot of the item box is selected by default when you first open the box—it usually contains the First Aid Spray when you start the game or the Closet Key if you've already cleared the game once.) Now select the grenade shells occupying the first slot in the item box and combine the shells from the item box directly to your equipped Grenade Launcher. The number of shells displayed under the Grenade Launcher will become corrupted. Now exit the item box; Jill will have 240 shells in her Grenade Launcher when you check her inventory. If you still have unequipped Grenade Launcher ammo in the item box, stay in the item box screen and swap out the grenade shells again. You'll see the 496 shells back in the item box. Now move the 496 shells from the item box into an empty slot in your inventory and exit out of the item box. You'll still have the spare set of 496 shells—and you'll also have 240 shells in the Grenade Launcher if you pulled them from the first item spot the second time you combined them. If you have more than one set of unequipped shells, you can keep swapping them out between the first slot of the item box and the equipped Grenade Launcher to create more shells at any time.

For example: To enter the "Infinite Turbo" code (3-1-2-Up), press the **X** button three times, the **A** button once and the **B** button twice, then press the D-pad or joystick **Up**. A message will appear to confirm if you've entered a code properly. Note: Some codes must be "agreed" to (entered by all players) in order for them to take effect. You can also enter the third number in each code by pressing the **Y** button instead of **B**.

BANJO-KAZOOIE

Secret Codes

Each of the following codes can be entered on the floor of the Puzzle Room inside the sand castle in the Treasure Trove Cove stage; just plop some eggs into Leaky the bucket so he'll drain the pond and you can walk inside. Use the Beak Buster move on the lettered tiles to spell out the code words as follows:

- Enter "C H E A T L O T S O F G O E S W I T H M A N Y B A N J O S" to earn infinite lives.
- Enter "C H E A T A N E N E R G Y B A R T O G E T Y O U F A R" to max out the capacity of your energy bar at eight honeycomb pieces.
- Enter "C H E A T D O N T B E A D U M B O G O S E E M U M B O" to earn infinite Mumbo Tokens.
- Enter "C H E A T N O W Y O U C A N F L Y H I G H I N T H E S K Y" to earn infinite red feathers.

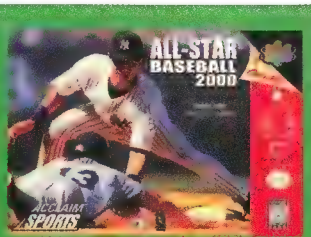
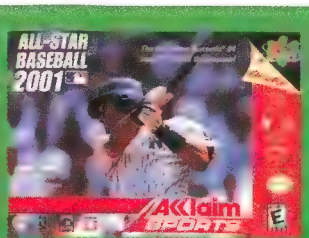
- Enter "C H E A T B A N J O B E G S F O R P L E N T Y O F E G G S" to earn infinite eggs.

For each code, you will hear a "Moo!" sound when you enter the first five letters; if you do not hear the "Moo!" during the first five let-





ters, exit the sandcastle and go back in. You will not hear any special sounds when you enter the remaining letters of each code, so take your time and aim carefully.

Bottles' Bonus Codes

Enter Banjo's house, stand on the yellow lines on the carpet directly in front of the fireplace, then press the C▲ button to enter the first-person camera view. Now look directly at the picture of Bottles on the wall; Bottles will give you a puzzle to solve. If you solve the puzzle, he will reward you with a secret code which you can enter in the sand castle in Treasure Trove Cove (as described above under "Secret Codes"). Note: Bottles will not allow you to access the puzzles until you have obtained the puzzle piece from the sand castle. There are seven codes available if you can solve all of the puzzles. IMPORTANT: The codes are listed below for reference only; they will not work unless you actually earn them by beating the puzzles that release the codes.

- Enter "BOTTLESBONUSONE" to give Banjo a big head.
- Enter "BOTTLESBONUSTWO" to give Banjo big hands and feet.
- Enter "BOTTLESBONUSTHREE" to make Kazooie big.

BANJO-TOOIE

Cheat Codes

As you locate the Cheato Pages in the game and return them to Cheato, he will give you codes that you can enter by shooting eggs at the letters on the wall in the Code Chamber to spell the words. However, each of the codes that he gives you will not work until after he has told you about it. The following codes can be entered at any time after you've cracked open the Code Chamber, including six codes that have the same results as the ones that Cheato and Madame Grunty give you and several new ones. Once you've entered a code, check out the sign on the wall to the right of the letter board to turn each cheat on or off.

CHEATOSREHTAEF—This code has the same effect as Cheato's "FEATHERS" code; it doubles the maximum amount of feathers that you can carry.

CHEATOSGGE—This code has the same effect as Cheato's "EGGS" code; it doubles the maximum amount of eggs that you can carry.

CHEATOFOORPLLAF—This code has the same effect as Cheato's "FALLPROOF" code; it allows you to fall from any height without losing energy.

CHEATOKCABYENOH—This code has the same effect as Cheato's "HONEYBACK" code; it makes your energy meter slowly regenerate.

CHEATOXOBEKUJ—This code has the same effect as Cheato's "JUKEBOX" code; it allows you to listen to any of the game's music tracks by accessing the jukebox in Jolly's Inn at Jolly Roger's Lagoon.

CHEATOYGGIJTEG—This code has the same effect as Madame Grunty's "GETJIGGY" code; it activates the signs in Master Jiggywiggy's temple that tell you where the jiggies are located in each stage.

CHEATOSUPERBANJO—With this code in place, both Banjo and Kazooie will run much faster.

CHEATOSUPERBADDY—Activate this code to make the game more challenging by speeding up all of the enemies.

CHEATOHONEYKING—Enter this cheat to completely disable the honeycomb meter and air meter; now you're invincible and can stay underwater or in toxic areas for as long as you want.

CHEATONESTKING—This cheat gives you unlimited eggs and feathers; your inventory will show that you have "LOTS" of every type.

CHEATOJIGGYWIGGYSPECIAL—This code unlocks all of the doors in the Isle O' Hags area, giving you access to all levels.

CHEATOGNIMOH—This code has the same effect as the "HOMING" code that you get from having Heggy hatch the pink egg; it improves your aim when firing eggs by causing them to change direction and curve toward any nearby enemy.

The remaining two cheats will not cause new menu items to appear on the wall in the code chamber; once you have entered them, their results will immediately become effective and will remain in place.

CHEATOCASTLIST—Unlocks a new option called "Character Parade" at the Cinema menu in Replay mode; this option is normally unlocked by collecting 90 jiggies. Note that this code will not work if you have already found 90 jiggies in any one of the three saved game slots; it also will not register if you have already entered the following code...

CHEATOPLAYITAGAINSON—Unlocks all of the items in Replay mode, including the "Character Parade" movie mentioned above.

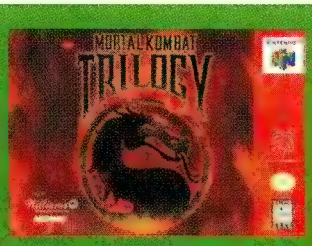
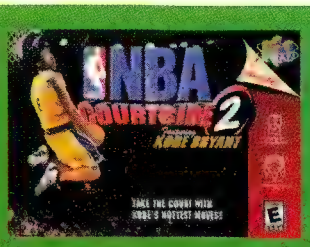
Cheat the Computer
When playing in Adventure mode, you can temporarily take over any computer-controlled character to stop him or her from buying stars or stealing yours. When you see that an opponent is getting close to a star, press **START** to pause, then press **A** to bring up the Settings menu. Choose "Controller Settings" and change your character to the "COM" setting, then select the character who is close to getting a star and assume control of him or her. Now you can force them to refuse stars from Toad or Big Boo, then switch back to your original character when you're done.
Earn Extra Stars + Coins
You can also use the "Controller Settings" menu as described above to earn extra stars and coins when playing against computer-controlled opponents. When you're on the





last turn of a game, connect controllers to all four controller ports (or use as many as you have) and assign any computer players to the extra controllers. When Toad tallies up what you've earned, he will include all of the stars and coins that were collected by any character that's not being controlled by the computer at the end of the game and add them to the cumulative totals that are stored in the cartridge's memory.

Play as Khameleon

When the "story" screens appear during the game's demo mode, quickly press C▶, C▲, **A**, **B**, C▼, C▲, C▶. If you're fast enough, you'll hear Shao Kahn say, "Khameleon." Now Khameleon is a selectable character at the character-select screen.

Play as Motaro

Play as Shao Kahn

Choose any character, hold High Punch + Low Punch and point the D-pad or joystick **Down** before the battle begins. When the fighters appear, you might change into Shao Kahn. Note: This trick only works in certain stages, including the Rooftop and The Pit 3.

Hidden Game #1

After playing 50 consecutive games in two-player mode, you'll get to play a hidden game that's similar to *Pong*.

Hidden Game #2

After playing 100 consecutive games in two-player mode, you'll get to play a hidden game that's similar to *Galaxian*.

Hidden Game #3

If you see a shadow of any kind flying in front of the moon, press the **Z** button; if you do this, the winner of that match will get to play a hidden game that's similar to *Space Invaders*. This game also appears if you play 150 consecutive games in two-player mode.

Stage Select

At the character-select screen, highlight Sonya, hold **Up** and press **START**, then choose your character normally. A "Select Kombat Zone" option will appear before the fight, allowing you to choose the stage you'd like to fight in.

When the "Choose Your Destiny" screen appears, you'll find that all of the battle plans have been changed to make them much more challenging. The "Novice" plan now includes three endurance matches instead of one, and the "Champion" plan starts with battles against Khameleon and Motaro—followed by a whopping *eight* endurance matches.

When the "story" screens appear during the game's demo mode, quickly press **Down**, **Down**, **Up**, **Up**, **Right**, **Right**, **Left**, **Left** on the D-pad. You'll hear a crunch sound to confirm the code. Secret "Kombat Cheats" Menu

You'll hear a voice say "Ow-uh!" Now press **START** to access the Kombat menu, then hold **Up** and press **START**. When the main menu appears, you'll find a new option with a red question mark; this cheat menu allows you to activate Free Play mode, disable the Fatality timer (giving you infinite time to do a finishing move), set one-round matches or turn the game's collision boxes on. The collision boxes are tools that the programmers use to check the characters' hit detection, but you can use them to study the attack ranges and defense parameters of your favorite fighter. When you attack, a blue box appears that shows the area of the screen that's within range of your attack and a red box appears that shows your opponent's vulnerable area. If the blue box touches the red box, your attack will connect. Note that the above code also activates the blue question mark menu as described above.

MULTI RACING CHAMPIONSHIP

Unlock Bonus Cars

To access the two locked garages, you must beat each track in Championship mode to gain access to Match Mode, then race in Match Mode and defeat both the Hannya and the Dues cars. If you don't want to take the time to do this, you can access both cars with the following trick: Plug in two controllers and access "Vs. Race" mode. Choose "Machine", then—when the car select screen appears—highlight one of the locked garages and press **B**; the word "Selected" will appear to confirm your choice. Both players can choose the Hannya or Dues in this mode; even better, if you use this trick to choose one of the "locked" garages for Player 1, then exit "Vs. Race" mode after leaving the car select screen, you can choose "Championship", "Time Trial" or "Free Run" mode from the main menu and the Hannya or Dues you chose in "Vs. Race" mode will still be selected.

Also, you must complete the code by continuing to hold **Z** as you highlight "END" and press **L**; the letters "OK" will appear in the corner of the screen if you've entered a code properly. With this code in place, release **Z** and enter your initials. Next, start a race and press **START** to pause. • Non-Blur Mode—**B, Left, Right, Up, Left, Z, Right**. This code turns off the N64's "bilinear filtering" effects, making the graphics appear to be more "pixelated."
• ZBuffer Mode—**C▼, Z, B, Up, Up, Right**. The ZBuffer is used by the N64 to determine if a pixel that is about to be drawn is in front or behind the pixel already on the screen. This buffer is exactly the same size as the buffer that contains the color information for each pixel. When you enter this cheat, the N64 continuously copies the current ZBuffer data into the color data, and the result is a freaky mess of colors on the screen. Enter the code again to turn ZBuffer Mode off.

Play as Grox

At the character-select screen, quickly press **Down, Right, Left, Left, Up, Down, Right, Up, Left, Left**. You'll hear the announcer say, "All too easy!" to confirm the code. Now press any button to choose the highlighted character; Grox will not appear until the fight begins.

Play as Exor

At the character-select screen, quickly press **Left, Down, Down, Right, Left, Up, Left, Up, Right, Down**. You'll hear the announcer say, "All too easy!" to confirm the code. Now press any button to choose the highlighted character; Exor will not appear until the fight begins.

Infinite Continues

At the first *War Gods* title screen—not the one with the "Start/Options" menu on it—quickly press **C◀, C◀, Right, A, B, C▲, C▶**.

You'll see the screen flash and the announcer will say, "All too easy!" if you've entered the code correctly. Now access the Options menu and highlight the "Continues" option; you'll find a new setting called "Free Play."

Cheat Menu

At the first *War Gods* title screen—not the one with the "Start/Options" menu on it—quickly press **Right**, **Right**, **Right**, **B**, **B**, **A**, **A**. You'll see the screen flash and the announcer will say, "All too easy!" if you've entered the code correctly. Now access the Options menu; you'll find a new option called "Cheat Menu" which allows you to handicap either player, choose which stage you'd like to fight in, disable the game timer or activate an "Easy Fatality" option. With this option turned on—and the "Fatalities" option activated at the main menu—you can perform any character's fatality with ease by simply standing at the correct distance (as described above) and pressing all four Punch and Kick buttons when the "Prove Yourself!" message appears.

WAVE RACE 64

Ride the Dolphin

Enter Stunt Mode and choose the Dolphin Park course. Now perform all of the possible stunts (handstand, ride backwards, stand up, somersault, vertical flip off a ramp, barrel roll off a ramp clockwise and counter-clockwise and submarine dive off a ramp), go through all of the rings and finish the course before the timer expires. The easiest way to accomplish this difficult task is to do all of the non-ramp stunts at the beginning of the course, before you reach the ramps; you can even do one stunt—like the stand and somersault—before you cross the starting line and you should still have enough time to reach the first checkpoint. There are only four ramps in the course, so you must do a different ramp stunt on each of them. If you do all of the above correctly, you should hear the dolphin chattering when you cross the finish line. With this trick accomplished, return to the main menu, choose Championship mode and select the "Warm Up" option. When the Watercraft Select menu appears, highlight the character you want, hold the joystick **Down** and press a button to confirm your choice. (If you want the alternate-color character, hold **Up** on the D-pad while holding **Down** on the joystick.) When the race starts, you'll be riding the dolphin instead of a jet ski. With the dolphin trick accomplished, you'll also find that the game's demo mode alternates between the normal demo and a new demo of people riding dolphins.

WAYNE GRETZKY'S 3D HOCKEY

Invisible Players

Pause the game and select "Replay". Press **L** or **R** to highlight a player; that player will flash for a brief instant. If you press **Z** quickly before the player stops flashing, he will turn invisible. Press **START** twice to return to the game; that player will stay invisible. Note that pressing **Z** causes the highlight to return to the player closest to the puck, and that highlighting an invisible player will cause him to become visible again. Note the order in which you advance through the players as you press the **L** or **R** button. To turn your entire team invisible, advance through the line-up with **L** or **R** until you reach the last player on your team, press **Z** to turn him invisible, then use the same button to advance to the next-to-last player, press **Z**, etc. You can't turn the goalie invisible with this trick, but if you pause the game while no player is controlling the puck, you can turn the players on both teams invisible.

Multiplayer Practice

To play in Practice mode with more than one player, each player aside from Player 1 should hold the **A** button at the title screen, then have Player 1 highlight "Practice" and press **A**. If you do this, all of the other players who were holding **A** will get to play in practice mode with you.

Instant Start

To start a game quickly, hold any button except **A** at the main menu and press **START**; you'll immediately jump to the face-off with you playing as Gretzky on the Rangers.

Select Opposing Team

When playing against the computer, go to the "Select Your Team" menu, highlight the team you wish to play against and press the C▶ button three times; you'll hear a click to confirm that the highlighted team has been chosen as your opponent.

Player Size Tricks

At the Options menu, hold the C▲, C◀ or C▼ button and press **R**; you'll see a line of numbers called "Specials" at the bottom of the screen. The first six digits control the way your character appears in the game as follows:

Big Heads—Hold the C▼ button and press **R** until the first two digits of the "Specials" option are "10".

Huge Heads—Hold the C▼ button and press **R** until the first two digits of the "Specials" option are "01".

Tiny Heads—Hold the C▼ button and press **R** until the first two digits of the "Specials" option are "11".

Tiny Players—Hold the C◀ button and press **R** until the third digit of the "Specials" option is "1".

Giant Players—Hold the C◀ button and press **R** until the fourth digit of the "Specials" option is "1".

Short, Fat Players—Hold the C▲ button and press **R** until the fifth digit of the "Specials" option is "1".

Tall, Thin Players—Hold the C▲ button and press **R** until the sixth digit of the "Specials" option is "1".

Some of these effects can be combined; for example, if you want giant players with tiny heads, use the above codes to change the first four digits of the "Specials" option to "1101". Some of the codes also change the announcer's voice in a humorous way.

Forfeit Game

During a game, press **START** to pause, then access the Options screen. Hold the **L** button and press C◀ nine times; the seventh digit of the "Specials" option will be changed to "1". When you return to the game, you'll find that the game clock is at 0:00 and the score is 1-0 against you.

Trade Players

At the Options screen, hold the **L** button and press C▼, C▼, C▲, C▲, C▼, C▼, C▶, C▶, C▼; the eighth digit of the "Specials" option will be changed to "1". Now return to the main menu, choose "Records" and access the "Team Stats" option. When the team stats appear, press the C▲ button ten times. A secret "Modify Teams" menu will appear. Use the D-pad or joystick to choose two teams to modify, then press **A**. The roster of the first team appears on the left; press **B** to change the team on the right. Use **Up** or **Down** to highlight the name of the player you want to replace, use **Left** or **Right** to highlight the name of the player you want to replace him with. Press **A** to make the substitution. Press **START** to advance to the other team to modify; when you're finished (or if you just wanted to mess with one team) press **START** to return to the "Team Stats" screen.

Frequent Fight Mode

At the Options screen, hold the **L** button and press C▲, C▲, C▼, C◀, C▶, C▶, C◀, C▶, C◀. The "Specials" option will appear with the ninth digit changed to "1". Now you'll have a fights breaking out every time a player is checked—but only if you're playing in "Arcade" mode with fighting turned "on". Also note that this code is automatically deactivated at the end of each period.

Access Super Teams

At the Options screen, hold the **L** button and press C▶, C◀, C◀, C▶, C◀, C◀, C▶, C◀, C◀. The "Specials" option will appear with the tenth digit changed to "1". Now you have access to four super teams at the "Select Your Team" menu: USA, Canada, Williams Entertainment and the "99ers".

See Company Logos

Press **Z** at the Options menu to view the different company logos that appear on the sides of the rink during the game. This only works if you choose Options from the main menu, not while a game is in progress. You can also do this at some of the other menu screens, like the "Records" menu.

WAYNE GRETZKY'S 3D HOCKEY '98

(The ability to trade players is a standard option in the '98 edition, not a hidden feature.) Also, the "Access Super Teams" code will allow you to choose four historical NHL teams—the Hartford Whalers, Minnesota North Stars, Quebec Nordiques and Winnipeg Jets—instead of the "super" teams from the original game.

BASES LOADED '96: DOUBLE HEADER

Automatic Home Runs

During the game, press **START** to pause, then grab Controller 2 and press △, □, ×, ○, ○, ○. You'll hear a piano sound. Next, press **L1** (also on Controller 2); you'll hear the words, "Home run!" Now you will hit a home run every time your batter makes contact with the ball—even if it's a bunt. To disable this cheat, simply enter the code again; when you press **L1**, you'll hear the word, "Safe!"

Skip Innings

As above, press the **START** button to pause, then press △, □, ×, ○, ○, ○ on Controller 2. You'll hear a piano sound. Next, press the × button (also on Controller 2); the words, "Let's Go Inning" will appear on the screen. Press × on Controller 2 to change the inning number, then press **START** to return to the game in the inning you chose. If the game is tied when you enter this code, you'll be able to select all the way up to the 18th inning.

Computer Control

To give the computer control over your team, pause the game and press △, □, ×, ○, ○, ○ on Controller 2. After you hear the piano sound, press the **L2** button on Controller 2; you'll hear a beep to confirm the code. If you want to regain control of your team, simply pause the game and enter the code again.

BATTLE ARENA TOSHINDEN

Play as Gaia

Turn the game on and wait for the title screen to appear. While the words "1P GAME," "VS HUMAN," "VS COMPUTER" and "OPTIONS" are flying in from both sides of the screen, quickly press ↓ ↙ ← + □ before all of the text appears. You'll hear "Fight!" and the small text on the title screen will change from blue to pink. (If you don't get it to register the first time, you must wait for the demo to begin or start a game and cancel to return to the title screen; the code won't work if you're returning to the title screen from the Options menu.) At the fighter-select screen, highlight Eiji, hold **Up** on the D-pad and press any action button.

Play as Sho

First enter the Gaia code. Next, wait for the title screen to appear again as described above. This time, while the words are flying into the screen, press → ← → ← + □ on Controller 2; you'll hear "Fight!" again and the text will change from pink to a greenish color. With that code in place, start a game. At the fighter-select screen, highlight Kayin, hold **Down** on the D-pad and press any action button. To choose the alternate-color version of Gaia or Sho, press **SELECT** before you hold the appropriate direction on the D-pad as described while choosing each character.

Easy Desperation Moves

Visit the option menu and configure your controller so that the L and R buttons are set up to trigger "Special 1", "Special 2", Special 3" and "Special 4"—setting A4 is a good example. Now you can trigger any character's desperation attack simply by pressing all four L and R buttons at exactly the same time whenever your energy bar is flashing red. Note that you can only choose the "special" control settings when the game's difficulty is set at "Easy" or "Very Easy"...unless you use the "Easy Special Attacks etc." code listed below.

Easy Super Moves

In addition to the desperation moves, each fighter in *Toshinden* also has up to three "Super" moves which are very difficult to execute, but can be used at any time during a match. Here's a list of the "Super" attacks, all shown as if your character is facing the right:

Eiji—↑ ↓ ↑ ↓ → ← → ← + △ + ○
Kayin—→ ↘ ↓ ↙ ← → ← + ○ + ×
Sofia (1)—→ ↘ ↓ ↘ → ← ↓ + △ + ×
Sofia (2)—↘ ↓ ↙ ↓ ↘ ← → ↓ + △ + ○
Rungo—↗ ↑ ↖ ← ↙ → ← ↓ + △ + ○
Fo (1)—→ ↗ ↑ ↖ ← + □ + ○
Fo (2)—→ ↘ ↓ ↘ → ← ↓ + △ + ×
Fo (3)—× □ △ ○ ← → ← → + △ + ○
Mondo—→ ↗ ↑ ↖ ← → ↙ ↓ + △ + ○
Duke—↘ ↓ ↙ ↓ ↘ ↓ ← → + □ + ○
Ellis (1)—→ ↗ ↑ ↖ ← + · + ○
Ellis (2)—↘ ↓ ↙ ↓ ↘ ← → ↓ + △ + ○
Gaia—↘ ↓ ↙ ↓ ↘ ← → ↓ + △ + ○
Sho—↓ → ↗ ↑ ↖ ← ↓ + △ + ×

The "Super" moves can be more trouble than they're worth, since they're so difficult to pull off. To make things easier, try this: First, enter both "boss" codes to access Gaia and Sho as described above. With those codes in place,

wait for the demo to begin again, then return to the title screen once more and press ↙ + ✕ on Controller 1 while the words are zooming in. You'll hear the word "Fantastic!" and the text will change to white. With this code in place, set the Control Type for all four "Specials" as described in the "Easy Desperation Moves" code above. Now, at any time during the game, you can trigger one of your character's "Super" attacks simply by holding the **SELECT** button and pressing all four **L** and **R** buttons at exactly the same time.

Easy Special Attacks at Any Difficulty Setting

Once you've entered all three title-screen codes as explained above, wait for the demo to start and return to the title screen as before. While the words are zooming into the screen, press → ← → ← + □ on Controller 2; you'll hear "Fantastic!" again and the text will change to yellow. With this code in place, you will be able to choose the "Special" Control Types—A3, A4, etc.—at any difficulty setting, not just "Very Easy" and "Easy".

Camera Controls

Go to the Options menu and choose any control type that has all four of the top buttons set to "NOT USE." Move down to the Camera Action setting; you'll find a new camera angle option called "Your Self." Choose it, and you'll gain access to eight new Control Type settings labeled A5 through H5, with "Camera X" and "Camera Y" functions assigned to the **L** and **R** buttons on top of the controller. Choose one of the new Control Type settings and start the game. The top buttons function as follows:

L1—Rotate counter-clockwise
L2—Tilt backward
R1—Rotate clockwise
R2—Tilt forward

To access additional camera controls, press the **START** button on Controller 1 to pause the game. While the "Pause" menu is on the screen, hold all four action buttons (✕ + □ + △ + ○) and press **SELECT** once to make the pause menu disappear; press it again to remove the energy bars. (Note: You can use this trick at any time, even if you're not messing with the camera angles. To restore the "Pause" menu and energy bars, just pause the game, hold the four action buttons and press **SELECT** one more time.)

While the game is still paused with the Pause menu and energy bars removed, the controller has six new secret functions:

L1—Pan left
R1—Pan right
D-pad **Up**—Pan up
D-pad **Down**—Pan down
L2—Zoom in
R2—Zoom out

Pressing the **SELECT** button repeatedly on Controller 2 allows you to step through the character animation one "frame" at a time; holding it down will allow you to play the game in super slow-motion. Press **SELECT** on Controller 1 to toggle between the rotate/tilt camera controls and the pan/zoom controls.

BATTLE ARENA TOSHINDEN 2

Boss Code 1

Turn the game on and wait for the title screen to appear. While the words "1P GAME," "FULL BATTLE" etc. are flying in from the left side of the screen, quickly press **R1**, **L2**, ✕, **L1**, **R2**, ○ before all of the text appears. You'll hear a signal to confirm the code if you're fast enough. At the fighter-select screen, highlight the "?" box; Master and Uranus are now included in the random characters that appear. To choose them more easily, hold the **SELECT** button; this slows down the random-select feature.

Boss Code 2

With Boss Code 1 in place as described above, return to the title screen; while the words "1P GAME," "FULL BATTLE" etc. are flying in from the left side of the screen, quickly press ○ **R2**, **L1**, ✕, **L2**, **R1** before all of the text appears. You'll hear a signal to confirm the code if you're fast enough. At the fighter-select screen, highlight the "?" box; Vermilion and Sho are now included in the random characters that appear. To choose them more easily, hold the **SELECT** button; this slows down the random-select feature.

Camera Controls

At the Options menu, set all four of the top buttons to "NOT USED." Move down to the Camera Action setting; you'll find a new camera angle option called "Camera." With this setting, you can change camera angles almost exactly as described under the codes for the original *Battle Arena Toshinden* game; the only difference is that you can't pan left or right.

10 Extra Lives

See the little polar bear in front of the door that leads to the "Bear It" stage in the second warp room? If you body-slam the critter five times in a row, you'll get ten extra lives.

Secret Levels

To access Level 26: Totally Bear, ride the bear cub in Level 15: Un-Bearable until you get thrown off at the end of the stage. Do a long jump to go back across the chasm and return to the cub to warp to the first secret level.

To access Level 27: Totally Fly, fall into the pool of water in the latter half of Level 16: Hangin' Out, then walk backwards instead of advancing past the checkpoint box. You'll fall into another hole that leads to a "hanging" area with flying spikey creatures. While Crash is hanging, use the ○ or **R1** button to lift his legs up and allow the spiked guys to pass below him; take it slow, advancing only one "step" for each enemy "lap." If you get through, you'll be warped to the second secret level.

You'll encounter a series of pterodactyl creatures who fly up into the air as you pass. If you jump into the clutches of the second pterodactyl, it will carry you to the top-secret Level 32: Eggipus Rex.

MONSTER RANCHER

Secrets
• The average monster will not live long enough for you to take it from the "E" ranking all the way up to "S" rank. There is a special food item in the game which will automatically increase your monster's lifespan by one year; otherwise, you should try not to push your monster too hard if it is tired, sick or injured. If your monster lives to be 10 years old, you will be rewarded with a special birthday song!
• Some special monster types can be created by combining two monsters in the Lab with the right item. For example, If your monster goes out exploring with Karn and finds a Magic Banana, take it to the Lab and use it when you combine two very lazy monsters; both should have a "style" rating of "Spoil." The result will be a rare Ape monster style.
• If you continue to play the game for many "years" of game time, new items will appear for sale in the item shop which will allow you to create rare monsters by using them when you combine monsters at the Lab.
• When your monster dies and you go to the shrine to create a new monster, there is a 1-in-16 chance that the new monster will be imbued with the spirit of the monster who died. A monster who is "possessed" in this way will not live long, but if you take it to the Lab and combine it with another monster, you may be rewarded with a rare "Ghost" monster type.
• To earn the rare "Doodle" monster type, breed a monster of the "Monolith" type until its "Fame" level rises above 80. Once you're there, allow the monster to lose battles until its Fame drops below 65; if this happens, the monster will become vandalized and change into the "Scribble" type. Combine the "Scribble" monster with another monster in the lab to get the "Doodle" type.
• To earn the extremely rare "Disc" monster, you must freeze a monster of the "Goooal!" type and another of the "Radial" type and combine them in the Lab.

Extended Roster

Each of the NBA teams in *Jam T.E.* has more than three players available to choose from. To find these hidden bonus characters, just put the cursor on the team you'd like to choose, hold the **SELECT** button and rotate the D-pad in a counter-clockwise direction. A card will drop from the top of the screen that says "EXTENDED ROSTER"; now you'll see extra players as you toggle through the line-ups with the **SELECT** button. Note that if you choose the extended roster for one team, then decide to choose a different team, the extended roster will not be available for the second team. This trick also works at the "Substitution" screen.

Power-Up Codes

Just like all of the other versions of *NBA JAM*, the PlayStation *Tournament Edition* offers plenty of power-up codes. Each of these codes must be performed at the "Vs." screen, when the announcer is saying, "Tonight's match-up...etc." In most cases, you'll see text on the screen that tells you the code is in place. Some of the codes don't show you immediate results on the screen, but you'll know they have been activated if you see your player flashing white before the tip-off.

Unlock Legends Players

From the "Game Setup" screen, press ○ to open the menu. Move the cursor to "Players," then press **Right** and then ✕ to enter the Create Player screen. Enter any of the names below as the new player's name. Each line lists the name of the real player followed by the first and last name that you must enter to unlock that player, separated by a comma. For example, to unlock Charles Barkley, you must enter your newly created player's first name as MOUND OF and his last name as REBOUND. Note the space between the two words in the first name. Immediately after entering a name correctly, you'll get a message telling you that you've unlocked that player. In order to use unlocked players, you must go to the "Unlock Legends" screen and change their status to "Active."

THE NEED FOR SPEED

Hidden Tracks
Choose "One Player" from the main menu and select "Tournament" mode. Choose "Password" at the tournament menu and enter the password "TSYBNS", then press **START**. With this code in place, you can now return to the main menu and choose any game mode. When you reach the "Race Location" menu, you'll find a secret track called "Lost Vegas".
"Rally" Tracks
With the cheat password in place, highlight any track and hold the **L1** and **R1** buttons. You'll see the name of the track change to "Rally"; this changes the pavement to a slippery dirt road like those in *Sega Rally*. If you hold **L1** + **R1** while the "Rusty Springs" track is highlighted, you'll gain access to yet another secret hidden track; this one's a desert course called "Oasis Springs".
Secret Car
With the "TSYBNS" password in place as described, choose any game mode and access the car select screen. Highlight any car and hold **L1** + **R1**; now you can choose the top-secret "Warrior" car.
Arcade Mode
Again, with the "TSYBNS" password in place, get to the "Race Location" menu and highlight the "Segment View" (or lap-select) box. Hold **L1** + **R1** and you'll see the words "Arcade Mode" appear. Start the game in Arcade Mode and you'll find that the game plays much more like a *Ridge Racer*-style arcade game instead of a full-on simulation.
Machine Gun Horn
Choose the Head-to-Head mode on the Race Type Screen. Select your vehicle, then pick your computer opponent's car. After selecting your opponent's vehicle, press and hold **L1**, ○, and diagonally **Up/Left** on the D-pad until the race starts. You can now blow everything out of your way by pressing **Up** to honk the horn. The noise it produces will sound like a machine gun.

NEED FOR SPEED II

Extra Camera Angles
When the "Loading..." screen appears before a race—with the course map on the screen—press and hold **L1** + **R2** + △ + ○. Do not release the buttons until your car appears on the track. Now press the △ button to cycle through the different camera angles; you'll find that there are now nine different camera settings instead of the usual four.
Cheat Passwords
Enter any of the following passwords from the options menu:
Access Ford Indigo car—LILZIP
Access Monolithic Studios track—SHOTME
All cars have Pioneer engines—POWRUP
Secret Vehicles
Each of the following passwords will give you access to a secret vehicle, but they're different from the Ford Indigo code (above) because you don't get to choose the secret vehicles from the car select menu. Instead, pick any car and set up all of the other race options. Finally, go to the options menu and enter one of the following passwords, then go immediately to the "Race" option at the main menu and you'll start the race with the secret vehicle you picked:
Army Truck—ARMYME
Volkswagon Beetle—BEETME
BMW—BMRME
Mercedes-Benz—BNZME
Volkswagon Bug—BUGME
School Bus—BUSME
Citroen—CITME
Shipping Crate—CRATME
Pick-up Truck—JEPME
Landcruiser—LCME
Stretch Limousine—LIMOME
Log—LOGME
Mazda Miata—MAZME
Outhouse—OUTHME
Luxury Sedan—QUATME
Semi Truck—SEMIME

Souvenir Stand—STDCME
Monolithic Studios Tram—TRAMME
Tyrannosaurus Rex—TREXME
Van—VANME
Volvo Station Wagon—VOVME
Covered Wagon—WAGOME
Jeep Wrangler—YJME
To give Player 2 a secret vehicle, change the last letters of any of these codes from "ME" to "U". For example, if you want to play in two-player mode with two army trucks, enter the password "ARMYME", then enter the password "ARMYU", then start the game.

Cheat Codes
Watch the game's loading sequence carefully; when you see the Infogrames logo begin to appear on a white background, quickly press **Up**, **Down**, then immediately hold the △ button and press ○. You should see the words "LOCK OFF" in green letters, right in the middle of the screen; this allows you to access all of the tracks in Arcade or Championship mode. As soon as you see the words "LOCK OFF," if you release the △ and ○ buttons immediately you can enter any or all of the additional codes shown below; these buttons must be held down before the Infogrames logo is colored in and you must continue to hold them until the memory card message appears:
• Hold **L1** and the words "TIME OFF" will appear; now the race won't end if the timer runs out in Arcade mode.
• Hold **L2** and the words "NARROW ON" will appear; now the tracks will be more narrow in Arcade mode.
• Press **Left**, then press and continue to hold **R2**; the words "RESTART ON" will appear. This adds a "Restart" option to the "Pause" menu in both Arcade and Championship modes, allowing you to restart a race.

PARAPPA THE RAPPER

Rapping Tips

• If you hold one of the action buttons down, then press another one, the word that's associated with the first button will come out automatically as soon as you take your finger off the second button. Try this at the beginning of Stage 1, Lesson 3: While holding the △ button, press and release the ○ button repeatedly in a steady pattern. Parappa should say, "Kick, Punch, Kick, Punch, Kick, Punch" and so on, even though you're not pressing the △ ("Kick") button more than once. This trick also doubles your speed; instead of getting one word for each button press, you're effectively getting two. Use this technique when you're "Rappin' Cool!" for lots of extra words and bonus points.

• One of the game's best-kept secrets is that it's possible to use the D-pad to change the order of the words that come out of Parappa's mouth. This only applies in lessons or stages where more than one word is assigned to a single button; for example, during Lesson 5 in Stage 3, you say, "I have never sold everything, everything" using only the ✕ button. If you hold **Left** on the D-pad and press one of the buttons, it will "reset" the list of words that are associated with that button to the first word in the series. Similarly, if you hold **Right** on the D-pad while you're in the middle of that series of words, it will "hold" that word and let you repeat it as many times as you wish; when you release **Right**, you can continue with the rest of the series of words that are assigned to that button. Depending on when you apply the D-pad, you can make Parappa say, "I have never, I have never sold everything" or even "I have never, never, never sold everything." This is an important trick; not only does it make it easier to break the "Cool!" barrier in certain lessons, but if you use this method to mix up your raps when you're freestyling in "Cool!" mode, you'll earn more points!

RESIDENT EVIL

Rocket Launcher

If you finish the game in less that three hours, your saved game will allow you to start a new game with an all-powerful rocket launcher; it has infinite ammunition and can destroy just about everything with one shot.

Special Key

In the room with the large mirror, there's a locked closet that seems impossible to get into. To get the special key that unlocks this door, you must finish the game with two characters rescued (e.g. if you're playing as Chris, you must have Jill and Rebecca with you when you leave the mansion; Jill must rescue Chris and Barry.) If you do this, your saved game will allow you to start a new game with the special key. Inside the closet, you can change your character's clothes.

RESIDENT EVIL: DIRECTOR'S CUT

Easier "Advanced" Mode

Choose "New Game" from the main menu, then highlight "Advanced" and hold **Right** on the D-pad for about four seconds; you'll see the word "Advanced" turn green. Now start the game in "Advanced" mode and you'll find that it's slightly easier than usual.

RESIDENT EVIL 2 PREVIEW (DEMO DISC)

"Rookie" Mode

Highlight "New Game" at the main menu and hold **Right** on the D-pad for about four seconds; a top-secret difficulty select option will appear, allowing you to play the game in the slightly easier "Rookie" mode.

RESIDENT EVIL 2

Secret Photo

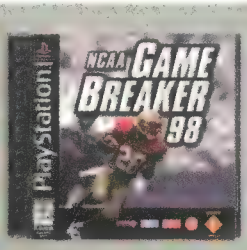
In the S.T.A.R.S. office, check Wesker's desk—it's the one right in front of the S.T.A.R.S. logo. You'll get a message that says, "It's trashed. Someone must have searched the desk..." Continue to check this desk over and over again; on the 50th try, you will obtain a film. Take the film to the darkroom to develop it and you will get to see a secret photo of Rebecca from the original *Resident Evil*.

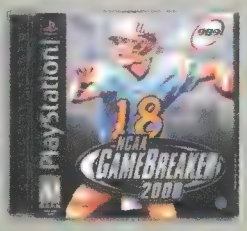
Alternate Clothes

Start a game in Normal Mode and go through the city area (including the gun store and the bus) without picking up any items. If you go to the alley by the stairs in the R.P.D. lot, you will meet a very special zombie: It's Brad Vickers, the helicopter pilot from the original *Resident Evil*. Enter the police department and get the rifle/grenade launcher from the S.T.A.R.S. room, then go back out and kill Brad (you can't take him down with your normal gun). Next, check his body; you'll find a special key. This key opens the locker in the darkroom; if you open it, you will be able to change into a different set of clothing at any time.

Bonus Weapons

If you beat Scenario One with an "A" or "B" ranking and your total playing time is under two-and-a-half hours, you will get a rocket launcher with infinite ammo for your next game. If you beat Scenario Two with an "A" or "B" ranking in under three hours, you'll get a sub-machine gun with infinite ammo for your next game. If you beat Scenario Two





with an "A" or "B" ranking in under two-and-a-half hours, you get both of these "infinite ammo" weapons plus a Gatling Gun, also with infinite ammo. You'll find the bonus weapons in the chest.

Secret Character: Hunk

To play as the bio-suit guy from the opening movie, you have to achieve an "A" Ranking in either Leon or Claire's Scenario Two; to do so, you must beat the scenario in under three hours without using any of the "infinite ammo" bonus weapons (see above). When you finish doing this, you will be asked to save a second time after the normal Scenario One/Scenario Two save. The saved game will say "Hunk," choose this to play as him.

Secret Character: Tofu

To play as a giant tofu, you must follow the instructions for playing as Hunk (see above). Once you've done this, you must continue playing until you have chained three sets of Scenario Ones and Scenario Twos (a total of six games). When you finish doing this, you will be asked to save an additional time. The saved game will say "Tofu," choose this to play as him. (Note: After you qualify for the "Hunk" save, you don't have to continue to get high rankings in order to access Tofu; just keep playing and always remember to save.)

RESIDENT EVIL 2 (DUAL SHOCK VERSION)

Extreme Battle Mode

Play through the game with either character and complete Scenario 2. After the credits roll, you will be rated as usual and a message will tell you that there is another mode. You will be asked to save the regular game and then it will ask you to save a second time for the Extreme Battle data. Extreme Battle mode can then be accessed by calling up the Load screen and selecting the EX Battle data from the Arrange Mode menu. If you're lucky enough to have kept a Scenario 2 save on your memory card from the original Resident Evil 2, you can use that with the Dual Shock version and simply complete the game to get Extreme Battle. When you beat the first level of Extreme Battle mode, you will earn the ability to play as Ada Wong; you can play as Chris Redfield if you beat the second level.

RIDGE RACER

Extra Cars

If you earn a "perfect" in the *Galaxian* loading game by destroying all of the enemy ships before they fly away, you'll get eight extra cars to choose from.

Reverse Tracks

When you have completed the whole game—time trials and all—you'll earn the right to race on four new tracks, which are really the existing four tracks driven in the opposite direction.

Mirror Mode

When you start a race, drive forward a bit, then spin around and head back to the steel wall that says "Wrong Way". If you're going fast enough, you'll pass right through the wall to race in "Mirror Mode".

Galaxian 13

The game's toughest secret is the mysterious black car, which appears by the side of the road after you've completed the game—both forward and reverse tracks—in its entirety. If you can beat the black car by staying in front of him and allowing him to rear-end your vehicle all the way to the finish line, you can drive the car yourself and even save it on your memory card.

RIDGE RACER REVOLUTION

Extra Cars

If you earn a "perfect" in the *Galaga '88* loading game by destroying all of the enemy ships before they fly away, you'll get eight extra cars to choose from.

Buggy Mode

If you earn a "perfect" in the *Galaga '88* loading game by destroying all of the enemy ships with exactly 40 shots, you'll get the eight extra cars as described above, but all of the cars on the track will be changed into funny-looking buggies when you start the race. This is very difficult to do, but here's a cheat that makes it easier: During the *Galaga '88* game, press and hold **Down** + **L1** + **SELECT** + △ + **R1**; all of the enemy ships will be automatically destroyed with exactly one shot each.

Secret Cars

Once you place 1st in all three courses in normal race mode, three super cars will appear to race against you in the Time Trial mode as follows:

Novice—13th Racing Car
Intermediate—13th Racing Kid
Expert—White Angel

If you can beat these cars in the Time Trial mode, they will become available for you to race with in all game modes.

Spinning Mode

Choose "Time Trial", then at the main menu, highlight the "Start" box, hold the Brake button and press the Accelerator button; continue to hold both buttons down until the race starts. (You'll have to press the Accelerator twice because the Brake button will take you back to the title screen.) Now you're playing in Spinning Mode. When you reach a turn where it's possible to spin your car 360°, the words "Spinning Point" will appear on the screen. Try to spin your car around; it helps if you choose a vehicle with a low "grip" rating. When you finish the turn, a toy car will drive across the screen and show you your total points for that spin. After the race, watch the replay to see a chart that shows your score on each Spinning Point along with your total for the entire race.

TEKKEN

Galaga Secrets

To continue playing the *Galaga* loading game as many times as you wish, just press the **SELECT** button whenever the screen displays your "Number of Hits". If you score a perfect 40 ships in the first round, the game will automatically continue to the next wave; there are eight waves in all. If you don't like using the D-pad to move your ship, you can use the **L** and **R** buttons on top of the controller. Holding the △ button gives you rapid-fire.

Double Ships

There are two ways to get twin ships in the mini-*Galaga* game.
Method 1: If you destroy a perfect 40 ships in the first wave with a total time of 18.5 seconds or less, you'll get the double ships for the second wave through the rest of the game.
Method 2: When you first load the game, wait for the PlayStation logo to appear, then hold **Up**, **L1**, △ and × on Controller 2 until the *Galaga* game starts. Now you can use the twin ships on the first wave.

Secret Character: Devil Kazuya

To play as Devil Kazuya, you must score a perfect "40" on all eight waves of the *Galaga* game without using more than one continue and without using Method 2 (described above) to get the twin ships. After you've done this, start the game in Arcade mode, highlight Kazuya and press the **START** button to choose his evil alter-ego.

Play as the Boss

You've probably noticed the extra characters that you can earn in *Tekken* by beating the game in Arcade mode. Each of the game's eight characters will "release" one additional fighter when you beat the game with him or her. If you beat the game with all eight characters, you'll earn an additional eight hidden characters to use in Arcade or two-player mode. To earn the big boss, Heihachi, as a playable character, you must beat the game with any character in Arcade mode without continuing. You may find it easier to do this if you visit the option menu and set the round time to 20 seconds; it also helps to choose one-round battles.

Hidden Character Demos

With the exception of Devil Kazuya, you can watch any of the game's fighters mixing it up in the demo mode. To do this, hold down the buttons as shown while the game is in demo mode:
Kazuya: Hold ↑ on the D-pad
Paul: Hold ↗ on the D-pad
Law: Hold → on the D-pad
Jack: Hold ↘ on the D-pad
Nina: Hold ↓ on the D-pad

This also works on Controller 2. For example, if both players hold all four **L** and **R** buttons on top of both controllers, the demo will show Heihachi fighting Heihachi.

TEKKEN 2

Hidden Characters

When you beat the game in one-player mode with a particular character, the "boss" character you defeated will become available as a playable character in all game modes. When you play in one-player mode as one of the "boss" characters, you'll face Kazuya; beat him and he, too will become a playable character. Beat the game as Kazuya and you will face Devil; defeat him to add Devil and Angel to your ranks. Finally, when playing in one-player mode, you must win Stage 3 with very little energy left; you'll hear the announcer say, "Great!" if you've met this requirement, and your next opponent will be Roger or Alex. Defeat him and you'll have all of the game's characters at your command. To play as Alex, highlight Roger and press either **Kick** button; to choose Angel, highlight Devil and press either **Kick** button. Note: You must have earned all of these characters to perform any of the following tricks:
• Kazuya's Purple Suit
Highlight Kazuya and press **START** to see his slick purple suit. This works in every game mode except Team Battle and can only be used by one player in a two-player game.
• Super-Deformed Characters

• *Punch-Out!!* Mode
Hold the **L1** and **L2** buttons when choosing a character in any one-player mode. You'll be playing in a semi-first-person perspective with your character drawn in green wireframe, just like Nintendo's classic *Punch-Out!!* arcade game. There's a small gauge near the upper left corner of the screen that helps you to judge your distance from your opponent.
• Super Juggle Mode
Hold **SELECT** and **Up** on the D-pad before the "Vs." screen appears; when the round starts, you'll hear an explosion sound. Now whenever you use an attack that makes your opponent go up in the air, they will go much higher, which makes juggling more interesting.

X-MEN VS. STREET FIGHTER

Secret Options Menu

At the main menu—the one that says "Battle Mode/Vs. Mode/Training Mode" etc.—press △, △, **Right,** ○, **L1**; you must enter this code very quickly. If you've done it fast enough, you will be taken immediately to a secret "EX Option" menu with two special options:

• "Game Mode" lets you use a limited version of the "tag team" option from the *X-Men vs. Street Fighter* arcade game. To do this, set "Game Mode" to "Original", then start a game in Vs. Mode. At the character-select screen, Player 2 must choose the same characters that Player 1 has chosen, but in the opposite order. (For example: If Player 1 chooses Cyclops, then Ryu, Player 2 must choose Ryu, then Cyclops.) If you've done all this correctly, when the fight starts you'll see that each of the four characters has his or her own energy meter. During the match, if you press Fierce Punch + Roundhouse Kick simultaneously (that's **L1 + R1** if you haven't changed the game's default control configuration) you will "tag out" and switch places with your partner, who enters with an immediate attack on your opponent.

• If you set the "Hyper Combo Gauge" option to "Full," your Hyper Combo Gauge will fill up to Level 3 automatically when playing in Vs. Mode.

Play as Apocalypse

First, beat the game in Battle Mode at any difficulty setting without losing a single round. Once you've accomplished this, start a game in Vs. Mode. At the character select screen, highlight Akuma, hold the **SELECT** button and press any action button. Apocalypse will appear as your chosen character. Here are some of his moves:

→ ↓ ↘ + Punch—Ground Pound

↓ ↘ → + Medium Punch—Shoulder Rockets

↓ ↘ → ↗ + Fierce Punch—Drill

↓ ↘ → ↓ ↘ → + any button—Mace

Alternate Chun-Li Costume

Highlight Chun-Li at the character-select screen, hold the **SELECT** button and press any action button to choose her. Chun-Li will appear in the costume she wore in *Street Fighter Alpha*.

At the main menu, press △, □, △, □, □, **Up, Up, Up.** You'll hear a special sound effect to confirm the code.

ZERO DIVIDE

Note: Some of the following tricks may require the use of a memory card. Always remember to save your data to the memory card after you play.

Alternate Character Color/Texture

Press **Up** + any button when choosing your fighter at the character-select screen.

Additional Color Choices

After you have beaten the game at any skill level with any number of continues, go to the character-select screen and hold **SELECT.** Now push any other button (including the **L** and **R** buttons) to choose different character colors.

Watch Mode

To watch the computer fighting itself, hold **L1+L2+R1+R2+Down** on Controller 1 and choose "VS Play."

Stage Select

When your total playing time passes the 30-hour mark, you'll hear the announcer say, "Wow!" when you return to the title screen. Now you have the option to choose any stage from the character-select screen in "VS Play" mode.

Hidden Comic Strip

First, beat the game in "Easy" mode without continuing. Once you've done this, highlight "Option" at the title screen, then grab Controller 2 and hold **L1+L2+R1+R2+START+SELECT**; you'll see a secret NECO comic strip.

Secret Bosses

To fight against XTAL, you must play all the way through the game with all eight characters—including ZULU—without using a continue.

To fight against NECO, you must play through the game as XTAL without using a continue; then, when the XTAL icon comes down from the top of the screen at the pre-fight map screen, hold **L1+L2+R1+R2,** then **SELECT,** then **START.** The text box will say "XTAL" but you will really be fighting against NECO.

Boss Codes

To play as ZULU, you must defeat the game at any difficulty setting with all of the characters, one at a time.

To play as XTAL, you must defeat the game at the "Normal" or "Hard" difficulty setting without using a continue; you must also defeat XTAL.

To play as NECO, you must play as XTAL or ZULU and defeat the game at the "Normal" or "Hard" difficulty setting without using any continues.

Flat-Shaded Turbo Mode

The coolest *Zero Divide* cheat has two steps: You must play the game until your total playing time is over 100 hours, and you must have performed a five-hit combo at any time. Once you've met both of these requirements, go to the Option menu, highlight the "Match Point" option, hold **L1+L2+R1+R2** on Controller 1 and press **Down.** You'll see the words "Shadow Obj" appear in the corner of the screen, just above the save counter. With this option in place, start the game and get ready for a surprise. The "Shadow Obj" option allows you to play the game with characters made of flat-shaded polygons instead of texture-mapped polygons; it also eliminates the background graphics. Not only does the game look different this way, but because the PlayStation is freed up from having to process all of those flashy texture maps, you'll find that the game's speed has been tripled, maybe even quadrupled! To disable the "Shadow Obj" option and return the game to normal, just highlight "Match Point", hold **L1+L2+R1+R2** and press **Down** again.

Hidden Game

Put *Zero Divide* into your PlayStation, hold the **SELECT** and **START** buttons on Controller 2 and turn the **POWER** switch on. Continue to hold the buttons down while the game loads; instead of *Zero Divide*, you'll get a hidden version of *Phalanx*, a classic Super NES shooter. Use Controller 2 to play the game.

Now start the game and you'll find that you have both Diddy and Dixie at the beginning of every stage—but all of the "DK" barrels have been removed from the game

75 Kremcoins

Enter the game's first stage, "Pirate Panic"—it doesn't matter if you do this in a new game or a saved game. Walk to the right until you see the entrance to K. Rool's cabin. Watch out for the two bananas on the ground right in front of the door; you must avoid these two bananas throughout the entire sequence or else the trick will not work. Walk inside the cabin, but do NOT touch the red 1-Up balloon; just walk out immediately. Back outside, you must carefully jump over the two bananas without touching them. Now go to the right and grab the first bunch of bananas you see on top of a set of barrels. Next, get back into the cabin without touching the two bananas in front of the door. This time, grab the red balloon and exit. Finally, go back to the barrels again and grab that same bunch of bananas, returning to the cabin without touching the two bananas in front of the door. When you enter, you'll find a spinning coin that gives you incredible 75 Kremcoins. Now you can access the Lost World through Klubba's Kiosks on any part of the island.

DONKEY KONG COUNTRY 3 DIXIE KONG'S DOUBLE TROUBLE!

Play With Blocks

At the "Game Over" screen, wait for the song to finish playing, then you can make the blocks jump up and play musical notes by pressing the **L**, **R**, **A**, **B**, **X** or **Y** buttons.

Cheat Passwords

At the "Select Game" menu, highlight the saved game you want to play in and press **L**, **R**, **R**, **L**, **R**, **R**, **L**, **R**. The words "Enter Code" will appear at the top of the screen and the name of your saved game will turn into a password entry menu. Enter one of the following code words; you'll hear Dixie giggle if a code has been entered properly. When you start from that saved game slot, your game will be affected as follows:

LIVES—Enter this password to start the game with 50 lives.

ASAVE—With this code in place, your game will automatically be saved after you complete each level without having to go visit Wrinkly Kong.

COLOR—This code makes Dixie's clothes purple and Kiddy's pajamas green; it also changes the colors of the flags that mark each completed level accordingly.

HARDR—This code is supposed to make the game more difficult, but we haven't figured out how it works just yet.

TUFST—Entering this password makes the game harder by removing all of the continue barrels from each level. If you play the full game with this code in place, you can get up to a 105% completion rating.

MERRY—This code changes the music in all of the game's bonus stages to a Christmas motif; it also changes the stars and bananas in the bonus stages to ornaments and presents.

MUSIC—Enter this code to access the secret "Dixie Kong's Music Test" screen, which allows you to sample all of the background tunes from the game.

WATER—Enter this code, then start the game. Swim in the water to the left of Funky's Rentals without any vehicles and go up to the waterfall on the left side of the map. When you touch it, you'll discover a secret puzzle cave that's just like the caves where you find banana birds. If you repeat the sequence correctly, you'll be rewarded with up to 85 bonus coins, enough to pay Boomer Bear to blast away all of the obstacles in the lost world of Krematoa.

DOOM

Chainsaw Trick

With a chainsaw in your inventory, strange things can happen—namely, if you fire every round of ammunition for one of your weapons, the game will usually give you a new, more powerful weapon by mistake. Here's how it works: When one of your weapons runs out of ammo, the game is supposed to switch to a different weapon in

your possession. However, once you've picked up a chainsaw, the game's logic gets screwed up. For some reason, running out of ammo can grant you the next most powerful weapon that's missing from your arsenal. The weapons progress in the following order: pistol, shotgun, chain gun, rocket launcher, plasma rifle. (Unfortunately, you can't seem to get a BFG 9000 with this trick.) Now, let's say you are walking around with a shotgun, chain gun and rocket launcher. If you have a chainsaw, just fire off all of your pistol rounds and you should get a free plasma rifle--even if you're in a stage where there's no plasma rifle to be found. Experiment with this sneaky trick to learn how to make it useful in different situations.

Note that the codes marked with an asterisk (*) can only be done once per level—these are the ones you give to your little brother when you don't want to totally ruin the game for him. Other code comments:

- The "Map View Mode" works as follows: When Jim disappears, use the D-pad to scroll through the level to the part where you want to start from, then press **A** to make Jim reappear.
- The codes that give you extra meal worms will only work in the stages that require them; namely, "The Villi People", "Inflated Head" and "Hammer Head".

- The "Invisible Soil" code works in the "Lorenzen's Soil" stage; it makes the falling soil invisible and allows you to walk through parts of the soil that look solid after you've shot them.

Once all of those passwords have been registered, return to the password menu a seventh time and enter the code M K W F L L. Now start a game, and you'll see that your 'mech's health meter will never register any damage.

Both fighters can block by quickly pressing **Up** twice.

MEGA MAN X 2

Hold the **B** Button on Controller 2 and turn on the SNES with *Mega Man X 2* installed.
Dragon Punch
You must have all eight weapons, all eight Heart Tanks and all four Sub-Tanks to do this. Defeat Violen and Serges during the last portion of your quest. Once you have the option of going to Agile's level, DON'T DO IT. Head to the Flame Stag's domain (Volcanic Zone) to max out your Sub-Tanks and extra men. Once you have maxed everything out—including weapons—head to Agile's level. Play through this stage until you reach an area where there are two ladders, one of which you cannot reach. Head to the left of the ladders to attract a bat. Freeze the bat with the Crystal Hunter somewhere near the upper

ladder (make sure you can reach it from the frozen bat). Climb up the ladder. Charge up your Speed Burner to its maximum. Jump to the right, then use the Speed Burner in mid-air to get over the spikes on the floor. Fall through an opening in the floor thereafter. Use the air dash for the next set of spikes. After that there's a really long drop. Cling to the right wall and use the Radar to find the invisible section in the wall. The Dragon Punch power-up will be waiting for Mega Man. The Dragon Punch can only be used when Mega Man's health is full. Perform the Dragon Punch (just as you would with Ryu or Ken in a *Street Fighter* game) by pressing → ↓ ↘ + Y.

MEGA MAN X 3

Chip Enhancer

You must have all eight Heart Tanks filled, all four Sub-Tanks filled, all four robot suits and the Dash Boots, Mega Buster, Armor and Sensor/Helmet upgrades to do this, and you can't do it with Zero. Go through the first stage of Dr. Doppler's lab until you reach a pit in the part where spiked balls are falling down from above. Jump into the pit and cling to the left wall; sliding down, you'll find a hidden tunnel that leads to Dr. Light. He'll give you a special chip enhancer and all four enhancement chips; now you can use all four chips at once instead of only being able to carry and use one chip at a time.

Get Zero's Weapon

Play through the first stage of Dr. Doppler's lab, then play as Mega Man *only* during the second stage. When you find the door that leads to the robot boss, switch to Zero, then enter and defeat the robot boss. Zero will be damaged during the battle and will give you his special weapon.

Roughly 30 seconds into the second stage ("Asteroid"), you'll encounter two gigantic asteroids, first on the left, then on the right. Shoot the asteroid on the right and it will explode. Stage Select

At the Sound Test menu, set the Music to "Continue," the FX to "Appear" and the Speech to "Think....". Now highlight the EXIT option and hold the D-pad to the **Left** for about five seconds; you'll hear a jingle. Now you'll get a level-select menu when you start the game.

MICKEY MOUSE IN CASTLE OF ILLUSION

Maximum Number of Marbles

At the end of the second level in Toyland, you'll come across a bag of marbles. If you pick the bag up and proceed to the right far enough, when you go back to the left, the bag will reappear. Each time you pick the bag up, you'll receive 1,0000 points and extra marbles (up to 30). Don't forget about the vines in the second part of Level 1-1. As long as you're on the vine, you're invincible, so you can swing on the vine and get all the points you want and up to ten men. You'll average about 95,000 points an hour.

Secret Cheat

Choose "View Character" from the non-combat menu. When the screen says "View Which?", press and hold **Left**, **A** and **C**, then release all three buttons at once. When the character menus come up, press **Left** repeatedly; you'll start to see stats for a lot of strange characters with incredible weapons and armor. If you make these weird characters trade their treasures to the members of your party, you'll be able to get tons of important items quickly and easily. You can earn quick experience points by accepting the knight's quest—since you'll probably have immediate access to the weapon he asks for—and you can sell the unused weapons for plenty of gold.

Free Food

Choose the "Share" option from your command menu and select "Food". After repeating this several times, your entire party's food supply will increase.

MIKE DITKA POWER FOOTBALL

Punt Trick

On offense, choose "punt" at the play selection screen; then, as your players are lining up on the field, press **START** and go to the "Substitutions" menu. Replace your punter with a fast player—one with a speed rating of 80 or more—and return to the game. When the ball is snapped, head for the left or right sideline and take off running. When you get 15 or 20 yards past the line of scrimmage, all of the players on the opposing team will freeze like ghostly statues—you can run all over the field and walk right through them. In a two-player game, the player who is being controlled by your opponent will be the only one who can move.

Easy Out

If the computer team has men on second and third or bases loaded, press the **B** button and throw the ball to third base, then quickly throw to first. You'll see the runners take off—but the man on second takes so long to get back to the base that you can always pick him off.

MORTAL KOMBAT

Fatalities

When the screen says "Finish him!", quickly enter the code shown below for your character. If you can't get it to work, you may be standing too close or too far away, so experiment with different distances.

Liu Kang—Down, Back, Up, Forward, Down
Johnny Cage—Forward, Forward, Forward, **A**
Kano—Back, Back, **A**
Rayden—Forward, Back, Back, Back, **A**
Sub-Zero—Forward, Down, Forward, **A**
Sonya—Forward, Forward, Back, Back, **START** (Block)
Scorpion—Up, Up (easier if you hold Block)

Secret Boss

To find the secret character, Reptile, you must play in one-player mode until you reach the stage called "The Pit". Now look at the moon in the background; if there is a shadow of any kind flying in front of the moon, follow these steps: You must win two perfect rounds (a "Double Flawless" victory) without ever using the Block button, and you must successfully perform your character's fatality on your opponent. If you do all of this, you'll be sent down to the bottom of the Pit to face the green ninja, Reptile. If there is no shadow flying in front of the moon, you cannot reach Reptile. The "Super Cheat Code" below can help you; turn on Flag 2 at the cheat menu to guarantee a shadow in front of the moon on the Pit stage.

Arcade Mode

Wait for the screen which says, "The word 'code' has many different definitions," etc. Press **A**, **B**, **A**, **C**, **A**, **B**, **B**. You'll hear Scorpion say, "Get over here!" as the letters turn blood-red. You've just activated "Mode A," with all fatalities and blood effects intact.

Super Cheat Code

At the "Game Start/Options" screen, spell the word "DULLARD" with the controller by pressing **Down**, **Up**, **Left**, **Left**, **A**, **Right**, **Down**. A third menu item called "Cheat Enabled" will appear. Highlight this new option and press **START**; you'll get a configuration menu with new options as follows:

- Fighter 1/Fighter 2—Control what characters will be seen in the "Demo" mode (see below).
- Plan Base—Fight your opponents in a predetermined order in the 1-player mode.
- Chop-Chop—Allows you to choose which materials you'll be shattering in the block-breaking Bonus round; this only works when you enter the Bonus stage from this cheat menu by choosing "Chop-Chop" under the "Demo" option.
- 1 Play Chop/2 Play Chop—These numbers determine the frequency with which the Bonus stage appears during the game. Choose "1" to make the bonus stage appear after every battle or "6" to stall it for six battles. "0" disables the Bonus stage entirely.
- Demo—This option will show you different sequences from the game; just pick a scene and press the **A** button to view it.
- FLAG0/FLAG1—Player 1 and/or Player 2 starts each round in "Danger" mode; one hit and you're dead.
- FLAG2—Guarantees a shadow in front of the moon on the Pit stage.
- FLAG3—Changes the moon shadow into the head of Fergus McGovern of Probe Software.
- FLAG4—Gives you Reptile hints before every battle.
- FLAG5—Gives you infinite credits.
- FLAG6—The computer does fatalities on you in one-player mode.
- FLAG7—Locks in the background at the Palace Gates stage all the way up to the endurance match.
- Blood On—Turns on the blood effects and arcade fatalities.
- Cheat On—Turn this "Off" to deactivate all of the flags simultaneously; otherwise, leave it in the default "On" position.
- 1st Map—Use this to select the starting scenario or background. If you choose to start at the Pit, you will always get a shadow in front of the moon, which makes it easier to find Reptile.

MORTAL KOMBAT II

Test Modes

At the options menu, put the cursor on "DONE!" and press **Left**, **Down**, **Left**, **Right**, **Down**, **Right**, **Left**, **Left**, **Right**, **Right**. A new menu option called "Test Modes" will appear. The new menu options allow you to make either player invincible, put either character in "Danger" mode, choose any background, set free play, make the computer do fatalities and more.

Fergality

At the Test Modes menu, set the Background to 6 and turn on the "Oooh, Nasty!" option. Play the game as Rayden, and when it's time to do a fatality on your opponent, press **Away**, **Away**, **Away**, **Block**. That weird character is Fergus McGovern of Probe Software, developer of the Genesis version of *Mortal Kombat II*.

MORTAL KOMBAT II (32X)

Test Modes

At the options menu, put the cursor on "DONE!" and press **Left**, **Down**, **Right**, **Right**, **Down**, **Left**, **Left**, **Left**, **Left**, **Right**, **Right**, **Right**. A new menu option called "Test Modes" will appear, giving you options similar to the Genesis cheat menus described above.

MORTAL KOMBAT 3

Play as Smoke

When the *MK3* logo appears at the beginning of the game and you hear a gong, press **A**, **B**, **B**, **A**, **Down**, **A**, **B**, **B**, **A**, **Down**, **Up**, **Up**. You'll hear Shao Kahn say "Smoke" and the background color will change from black to blood-red. Now Smoke is a playable character in both the one- and two-player modes.

Endurance Mode

At the main menu, highlight the words "Start Game", hold the **A** and **C** buttons and press **START**. This takes you to a hidden character-select screen in which both players can choose up to eight fighters for an Endurance match. Press the **START** button to register for the battle, then use **Left** and **Right** on the D-pad to choose a fighter for each box in the line-up. Press **B** to choose a fighter at random for the current box, or hold **Up** and press the **START** button for a random selection of characters for all boxes. Choosing the dragon logo is the same as choosing a character at random, but you won't know who the character is until his or her turn comes up during the fight. With a Sega Tap adapter, up to four players can participate.

Secret Cheat Menus

At the main menu, press **A**, **C**, **Up**, **B**, **Up**, **B**, **A**, **Down**. A new menu item called "Cheats" will appear. Choose it, and you'll get a secret menu with several new options. "Sound Test" lets you listen to all of the sound effects and music from the game, "Continues" allows you to change the number of credits in a one-player game (up to 95) and "Bio Screen" lets you see any character's biography simply by pressing the **START** button.

Also at the main menu, press **B**, **A**, **Down**, **Left**, **A**, **Down**, **C**, **Right**, **Up**, **Down**. Another new menu item called "Secrets" will appear. The "Timer" option allows you to change the speed of the game clock, or switch it off entirely. "Win Screen" lets you see the ending story of any character by pressing the **START** button, and "Kombat

Zone" allows you to choose which stage you'll be playing in when you start the game.
Another cheat code that can be entered at the main menu is **C, Right, A, Left, A, Up, C, Right, A, Left, A, Up**, which gives you a "Killer Codes" menu. "Quick End" lets you perform fatalities, babalities, etc. with just one or two buttons, usually the last button (or combination of buttons) in the series when you perform the finishing move normally. (For example: the sequence for Jax's normal Friendship move ends with the **LOW KICK** button. If you set the "Quick End" option to "Friendships", you can do Jax's Friendship move by simply pressing the **LOW KICK** button once when the screen says "Finish Him!") The "Smoke" option gives you the ability to activate Smoke as a playable character without the hassle of entering the "Play as Smoke" code described above, and "Bosses" lets you choose Shao Kahn or Motaro as controllable characters—but only in two-player mode. "Play Hidden Game" lets you sample the hidden shooter game which appears when the battle counter reaches 100 in the normal game; hold any button after you lose your last ship to see some statistics about your performance.

Ha-Ha Carnival Solution

From the front Lot of the Ha-Ha Carnival, walk to the right and head down the pier which leads off screen to the bottom; you'll see Fred, Daphne and Velma stuck on the pond. Walk back to the front lot, then head up through the blue archway (marked with the closed sign) to the Boardwalk.

Open the **trash can** next to the funhouse to find the **mummy bandages**. Continue walking right, past the funhouse and the roller-coaster until you come to the **Madame Zelda Machine**. Take the yellow **coupon** from the machine, which will give you a free shot at the Hammer game. Walk up to the taffy puller and take some **taffy**. Now walk right and enter the Boathouse, which is the building marked with the anchor. Take the **boat** and the **bottle** from the pool. Open the bottle, then look at the **note**, which will tell you that someone is being held prisoner in the haunted house.

Exit the Boathouse and walk left until you come to the gaping clown's mouth which is the funhouse. After entering the funhouse, you will be in a room with a rotating floor. There are three exits; to enter them you must attempt to move in the opposite direction of where you wish to go. First, press **Right** on the D-pad to enter the left tube, which will drop you in the Hall of Mirrors. Walk right until you come to the mirror with wheels and **push the mirror** to get rid of the scary clown. If the clown spooks you away, come back and push the mirror before the clown is in view. Take the **spark plug** the clown drops and exit to the left.

Enter the funhouse again and press **Down** to enter the center tube. This will drop you in the bumper cars room. **Use the taffy with the engine**, then **use the switch** to start the cars. **Use the bumper car** and prepare for battle with the clown. The best way to defeat him is to avoid the walls at all costs, then ram him when he is stuck against them. If he defeats you, come back and try again. Once you win, he will run off, dropping a **dart**. Pick up the dart and exit to the right.

Once again, enter the funhouse. This time press **Left** to enter the right tube which leads to the Haunted House. Take the **boots** from the monster. **Open the coffin** to reveal the mummy, then **pull the bandage** after the coffin is closed. If Shaggy is too scared, simply pull the bandage again to free the carnival manager. Now exit the Haunted House in the lower left corner of the room.

Walk left from the boardwalk to return to the front lot. **Talk to the kid** to find out that he wants a water pistol. Walk right and enter the Hammer Game. **Give the coupon to the attendant**, then **use the hammer with the hammer game**. That didn't seem to work, so **pull the pole** next to the game to turn the tables on the cheating attendant. Now walk back through the front lot to the boardwalk and continue right until you reach the entrance to the back lot.

Go into the back lot and **use the ladder** to the left to reach the bungee jump platform. **Use the bungee harness**, and take the **bucket** while Shaggy is bouncing. Once you're back on the platform, use the ladder to return to the back lot. Return to the boardwalk and **use the bucket with the faucet** next to the taffy machine. Go the to the back lot and walk right until you reach the balloon stand. **Use the balloon with Scooby** to get the **magnet** from the ferris wheel. Now walk into the diving bell. **Use the valve** in the bell, then **open the hatch** once you are submerged. **Use the magnet with the treasure** to retrieve some **tokens**, then **use the bucket with Inky**, the baby octopus. Use the valve to return to the surface.

Walk all the way back to the front lot, then enter the Arcade tent to the right. **Use the tokens with the crane game** to get the **water pistol**. (It might take a few tries, but it seems to work best if you leave the crane in its starting position and press the button when the pistol is at the back of the rotating platform.) Enter the door marked "Employees Only" to the right of the strong man; it leads to the dressing room. Take an **application** from the table, then **open the trunk** and take the **wrench**.

Return to the front lot and **give the water pistol to the kid**. Now return to the fortune telling machine on the boardwalk. **Use the tokens with Madame Zelda**, then ask the question "**What is the meaning of life?**" to make the machine break. Take the **head** from the broken machine. Go left to the Roller Coaster booth and **give the tickets to the attendant** to find out that you must have at least four riders. Now enter the funhouse again and press **Left** to enter the tube to the Haunted House. **Use the wrench on the bolts** in the monsters neck, then exit.

Walk back to the kid and **talk** to him until he agrees to ride the roller coaster with you. After the attendant tells you the kid is too short, **give the boots to the kid**. Don't worry, if you have Zelda's head, the attendant will still let you ride after the kid runs off. Once you are on the roller coaster, quickly **use the brake handle**. After you are safely stopped, **use the bolts with the track**. After the track is repaired, use the brake again. On the second roller coaster screen, quickly **use the second brake**. If you miss either brake, you can ride the coaster again without hassle. **Open the shed** next to the track and take the **paintbrush**. Now use the brake again to finish the ride.

Walk to the front lot, then walk down the pier to the pond. **Use the spark plug with the boat**, then **use the boat with the pond** to save the gang.

After the intermission scene, enter the front office to the right. You can talk to the manager, but he is unwilling to help. There is a stamp on his desk, so **use the rubber stamp with the application**. Return to the front lot and enter the arcade tent. **Give the tickets to the dart attendant**, then **use the darts** (the darts he places on the counter, that is; the one in your inventory won't work.) Play the game three times to win the **teddy bear**.

Finally, go right to the dressing room and **use the application with the bulletin board**. Walk to the front lot and take the **sign** from next to the Java Hut, then go to the back lot. **Give the teddy bear to the balancing bear** and take the **ball** she leaves behind. **Use the paintbrush with the bucket with Inky**, then **use the Inky brush with the sign**. **Use the sign** to complete your trap. Now you have to get the clown into the ferocious beast's cart, so while he is standing there looking confused, **use the dart with the ball**.

Jump and hang on to one of the handles, then—while your character is hanging from the handle—press **Left, Left, Left, Right, Right, Right, Up, Up, Up**; you'll hear a chime to confirm the code if you've entered it quickly enough. Now press **START** to pause, then press **A**; the game should restart. When the title screen reappears, hold the **A** button and press **START** to access the stage-select and sound test menu. Note that you cannot access certain levels unless you have a copy of *Sonic 3* "locked-on" to your *Sonic & Knuckles* cartridge.

Stage Select with Sonic 3 "Locked-On"

Play through the first stage until you reach one of the swinging vines with the handles on the ends of them. Jump up and grab the handle, then—while your character is swinging from the vine—press **Left, Left, Left, Right, Right, Right, Up, Up, Up**; you'll hear a chime to confirm the code if you've entered it quickly enough. Now press **START** to pause, then press **A**; the game should restart. Press **Up** or **Down** at the title screen menu until you see a new item called "Sound Test"; this gives you the stage-select and sound test menu. Near the upper left corner of the screen is a small number which you can change by pressing the **C** button; this number represents the character you want to play with according to the following legend:

00—Sonic and Tails
01—Sonic
02—Tails
03—Knuckles

Stage Select with Sonic 2 "Locked-On"

At the title screen—just as Sonic is starting to appear—press **C, C, Up, Down, Left, Right**. You'll hear a chime. With this code in place, you'll have access to the following features:

- System Reset—Press **START** to pause the game, then press **A** to reset to the title screen.
- Slow-Motion—Press **START** to pause, then hold the **B** button to play in slow motion. If you tap the **C** button while paused, you'll advance the action one "frame" at a time.
- Debug Mode—When the name of the current zone appears in big letters at the start of a stage, press the **A** button and hold it down until Sonic appears. Your "Score" indicator will be replaced by a bunch of hexadecimal numbers. Now you're invincible; the only thing that can kill you is if you fall off the screen. Press **B** during gameplay to change Sonic a different object from the game; while Sonic is a different object, you can move the object anywhere in the current stage with the D-pad. Also, when in "object" mode, press **A** to change to a different object, **C** to place a copy of that object on the screen or **B** to change back into Sonic and continue play. Use this feature to modify the game's stages or even "draw" hundreds of gold rings on the screen; when you change back into Sonic you can pick them all up.

SONIC THE HEDGEHOG 2

You'll hear a chime to confirm the code. Note: This is a very difficult code to enter. You must press the buttons at a consistent speed, starting at the exact moment when the screen turns black; you should finish entering the code just a split-second before the screen turns pure white. Use a very light touch on the D-pad and press **Up** and **Down** evenly, making sure not to touch the diagonals. If you don't hear the chime, just reset and try again. Once you've done it right, press **Up** or **Down** at the title screen menu until you see a new item called "Sound Test"; this gives you a stage-select and sound test menu. The list even includes the names of zones that were taken out of the game before it was released. You can't play these stages, but you can hear the music from them with the Sound Test option. With the code in place, you have access to the following features:

- System Reset—Press **START** to pause the game, then press **A** to reset to the title screen.
- Slow-Motion—Press **START** to pause, then hold the **B** button to play in slow motion. If you tap the **C** button while paused, you'll advance the action one "frame" at a time.

However, if you get killed when playing in Debug Mode, just press the **B** button quickly before Sonic falls off the screen with the surprised expression on his face; this will change him into an object and freeze the action. VECTORMAN

Hidden Game + Level Warps
When the Sega logo appears at start-up, notice that you can move Vectorman around the screen with Controller 1. To find a hidden game, move Vectorman under the Sega logo and shoot straight up at it exactly 24 times. Next, make Vectorman jump up and hit his head on the logo exactly 12 times. You'll see the words "Get Ready" on the screen, then the letters "S", "E", "G" and "A" will begin to fall from the sky; 120 of them, to be exact. If you catch between 90 and 109 letters, you'll be able to start the game at Day 5; if you can catch 110 letters or more, you'll warp to Day 10.
Blow Up Sega
Also at the Sega logo screen, stand on the ground just slightly to the right of the logo and fire your weapon straight up into the air. There's a TV set hidden just off the screen; if you blow it up, it will reveal an Orb power-up. (You'll have to jump up from the logo to grab it.) If you detonate the Orb, the Sega logo will go dark and the background will stop moving.
Cheat Codes
Vectorman has tons of cheats that can be activated during the game with the following sequence: Press **START** to pause, enter the code, then press **START** to unpause. Try the following codes while the game is paused for different effects:
ABRACADABRA (**A**, **B**, **Right**, **A**, **C**, **A**, **Down**, **A**, **B**, **Right**, **A**)—Refill your energy counter at any time.
BALL or BALD (**B**, **A**, **Left**, **Left** or **B**, **A**, **Left**, **Down**)—See the programmers' debugging coordinates.
ABACABB (**A**, **B**, **A**, **C**, **A**, **B**, **B**)—Five dots will appear around Vectorman and follow him wherever he goes.
DRACULA (**Down**, **Right**, **A**, **C**, **Up**, **Left**, **A**)—When you get hit, the game will slow down in order to help you to recover safely.
CALL A CAB (**C**, **A**, **Left**, **Left**, **A**, **C**, **A**, **B**)—Vectorman turns into a small arrow. This works like a level warp; you can move the arrow anywhere in the current level without taking any damage, so use it to skip the tougher parts of the game. You can't shoot TVs or collect power-ups while you're an arrow, but you can destroy many enemies just by touching them. When you want to change back into Vectorman, just pause and enter the CALL A CAB code again.
Super Cheat Menu
At the Options menu, press **A**, **B**, **B**, **A**, **Down**, **A**, **B**, **B**, **A**. You'll be taken to a top-secret cheat menu that allows you to adjust your health meter and start at any stage with any weapon.

POKÉMON (Red, Blue and Yellow versions)

Celadon "Rocket Game Corner" Tips

• Slot Machines—Watching the reels carefully can increase your odds of getting a match. For example, watch for a particular image or number to scroll by, and hit the **A** button as soon as it appears for each reel. The chances of you lining up another image is fairly high, as long as you don't get dizzy staring at the tiny Game Boy screen. Although it's claimed that the slot machines inside this casino have different odds, watching the reels works on all of them.

• Secret Coins—After speaking to the other people in the casino to get coins, you can discover secret coins lying around the floor of the Game Corner by moving around and pressing **A**.

Evolution Tip

Some Pokémon can only be evolved through the use of elemental Evolution Stones. It is a bad decision to evolve your Pokémon right away, since there may be some attacks it can only learn in its Basic Evolution stage that it would never learn if you evolved it right away.

Hidden Machine Tips

• Hidden Machines, or HMs, are permanent. If you teach them to one of your Pokémon, they will never forget it; therefore, don't teach weak HM skills like "Cut" to a Pokémon you intend to use as part of your main party.

• HM 01 (Hidden Machine 01): Cut—When you use Cut in a grassy area, you will clear away four squares of grass. Using this method is one way to avoid random encounters with wild Pokémon.

Master Ball Tip

The Master Ball is an ultimate Pokéball that can capture any Pokémon instantly. It can only be used once, so don't waste it on a common Pokémon. It should be saved so it can be used to capture Mewtwo or one of the three Legendary Birds.

Fight Mewtwo

In order to fight Mewtwo, you need to gain access to the Unknown Dungeon. You must defeat the Elite Four before the man blocking the entrance will allow you through. Also, you must NOT reset your game after you've beaten it. Wait for the credits to finish, then go back to the Start screen by pressing **A**. Fly to Cerulean city, then use a Pokémon that knows Surf to get to the Unknown Dungeon, which lies to the northwest of Cerulean city. Right before you fight Mewtwo, save your game. That way if you lose or if Mewtwo faints, you can quickly reset the game. You should also do this before fighting other "one-time-only" Pokémon like Zapdos, Articuno and Moltres. When you fight Mewtwo, either use the Master Ball immediately or use sleep attacks and a lot of Ultra Balls.

Quick Experience Gain

If you have a group of strong Pokémon with one weak Pokémon, you can level up your weak Pokémon quickly by letting it share experience with a stronger one. Put the weak Pokémon at the top of the list so it always goes out into battle first. Switch it immediately with a strong Pokémon and the two will split the experience points in half. This is an excellent way to level up Pokémon like Magikarp, which are useless before they evolve.

Rare Candy Tip

Gaining levels by using Rare Candy on your Pokémon is not as effective as leveling up your Pokémon normally. Pokémon who legitimately gain experience improve their statistics more dramatically than Pokémon who only used Rare Candy, so it's not a good idea to use a lot of Rare Candy on one Pokémon at once, since it will be weaker than other Pokémon that are the same level.

Increase Stats

Use one of your Pokémon in battle until all of its PP for one move is depleted. Take it to a Poké Center to store it in Bill's PC, then immediately take it out again. Heal your Pokémon at the Poké Center, then check its statistics—you'll find that some of its attributes have slightly increased. This will occur even if you are using a Pokémon that is already at Level 100.

POKÉMON: SPECIAL PIKACHU EDITION (Yellow version)

Level Up Pikachu

When playing *Pokémon Yellow*, your starting Pikachu will obey you no matter what level he is or how many badges your character has earned. Knowing this, one quick way to blaze through the game is to trade your starting Pikachu into another *Pokémon* game that you've already finished and quickly level Pikachu up by having him lead off during battles in the Elite Four tournament. When you trade him back into *Pokémon Yellow*, your character will have no trouble controlling him, even if his levels are maxed out and you haven't earned a single badge. This will only work with your *Pokémon Yellow* starting Pikachu, i.e. the one that follows you around everywhere.

Bucket-Head Pikachu

Pikachu trails behind your main character during the game, and you can turn around and "speak" to Pikachu to get a graphical representation of what's on his mind. When you take Pikachu fishing, maneuver your character so you're standing beside Pikachu. After fishing, turn to speak to Pikachu and he will respond with a bubble over his head with a picture of a fish in it. Zoom in on Pikachu and you'll see that he's put your fishing bucket on his head!
